ACHIEVEMENTS

UGC-NET 2024	**COMPUTER SCIENCE AND APPLICATIONS**
	ELIGIBLE FOR ASSISTANT PROFESSOR AND ADMISSION TO PH.D.

EDUCATION

2022 - 2024	**MASTERS IN COMPUTER APPLICATIONS**
	MES COLLEGE OF ENGINEERING (KTU University)
2019 - 2022	**BACHELOR OF COMPUTER SCIENCE**
	MES PONNANI COLLEGE (University Of Calicut)
2019	**PLUS TWO BIOLOGY SCIENCE**

PROJECTS

Secure Encrypt-A Location Detection Encryption Technique

- Project focusing on developing a secure scrutinization system for the purpose of scrutinization of question paper that ensures encryption, location detection and provide related information.

- Usage of Location Detection and Hashing technique to enhance consistency and integrity of data.

Lab-Logs

- This app is to build a network communication among server and client end and ensures installation of particular operating systems such as python,java,etc.The system simplifies the task of managing installations in a computer lab, making it more efficient and centralized.

- The goal is to establish peer-to-peer connections, minimizing latency and enhancing the efficiency of communication.

Hospital Logs

- is an advanced secure and easy use web-based application to provide information about doctors, patients,etc related to a hospital. The system prescribes the services, availablity of doctors, consulted patients, appointments and reports regarding to doctor and patient.

- Django, HTML and Mysql used for development of the app.

TECHNICAL SKILLS

Python — Django — Flask — Java — JavaScript — React js — C — Bootstrap — HTML — CSS — PHP — MySQL — MongoDB — PostgreSQL — Flutter — Dart — Git and Github —

CERTIFICATIONS

Programming, Data Structures and Algorithms Using Python (IIT MADRAS)

Cloud Computing (IIT KHARAGPUR)
